Task-4

Part-A

Email 1 — Write an email from a student to their professor requesting an extension on an assignment submission deadline. The email must follow all professional email rules

From: aryan123@gmail.com

To: narendrasing@gmail.com

Date: March 23, 2026

Subject: Extension Request

Dear Professor,

I hope you are having a good week.

I am writing to respectfully request an extension on the Static Equilibrium and vector forces assignment, which is currently due on 23rd March,2026.

Due to an unexpected illness of stomach, I have fallen slightly behind my planned schedule for this coursework. I am very committed to submitting high-quality work that reflects what I have learned in your class, and a brief extension would allow me to ensure the assignment meets those standards.

If possible, would it be acceptable to submit my assignment by 26th March,2026 and 5:00PM?

I have attached my progress so far to show that the foundation of the work is complete. Thank you for your time and for considering my request. I look forward to hearing from you.

Best regards,

Aryan

Email 2 — Write an email from a student to an internship coordinator at a company, expressing interest in a summer internship opportunity.

From: aryan123@gmail.com

To: maheshpatel@gmail.com

Date: March 23, 2026

Subject: Summer Internship Opportunities

Dear [Internship Coordinator Name or "Internship Programs Team"],

I hope this email finds you well.

My name is Aryan Joshi and I am a third-year Mechanical Engineer student at VIT Bhopal University. I am writing to formally express my interest in a summer internship opportunity with Reliance.

I have been following Reliance's recent work in sustainable energy solutions, and I am deeply impressed by your commitment to Engineering a greener, more sustainable future. With my background in CAD modelling(For creating 2D/3D layouts of energy infrastructure), I am eager to contribute to your team while gaining hands-on experience in a professional engineering environment.

I have attached my resume and portfolio for your review. I would welcome the opportunity to discuss how my skills and academic background could support your upcoming summer projects.

Thank you for your time and consideration. I look forward to the possibility of hearing from you.

Best regards,

Aryan Joshi

Part-B

Social Media Responsibility: Do's and Don'ts Checklist

Maintaining a professional and responsible social media presence is crucial for college students, as digital footprints are often reviewed by internship coordinators and future employers.

Do’s	Don’ts
Audit your privacy settings regularly to ensure you know exactly who can see your personal posts and tagged photos.	Post confidential information, such as your student ID number, home address, or private details about campus research projects.
Use a professional profile picture and a clear bio on platforms like LinkedIn to build a positive digital brand.	Engage in "cyber-venting" or posting heat-of-the-moment complaints about professors, peers, or university staff.
Verify information before sharing to prevent the spread of misinformation or "fake news" within your network.	Plagiarize or share copyrighted material without proper attribution, which can reflect poorly on your academic integrity.
Network with industry professionals and alumni by joining relevant groups and contributing thoughtful comments to discussions.	Post content depicting illegal activities or policy violations, as these can have immediate academic and professional consequences.
Think before you tag others in photos; always respect the privacy and professional boundaries of your friends and classmates.	Ignore your digital footprint; avoid assuming that "deleted" content is permanently gone from the internet.
